

SPRING / SUMMER

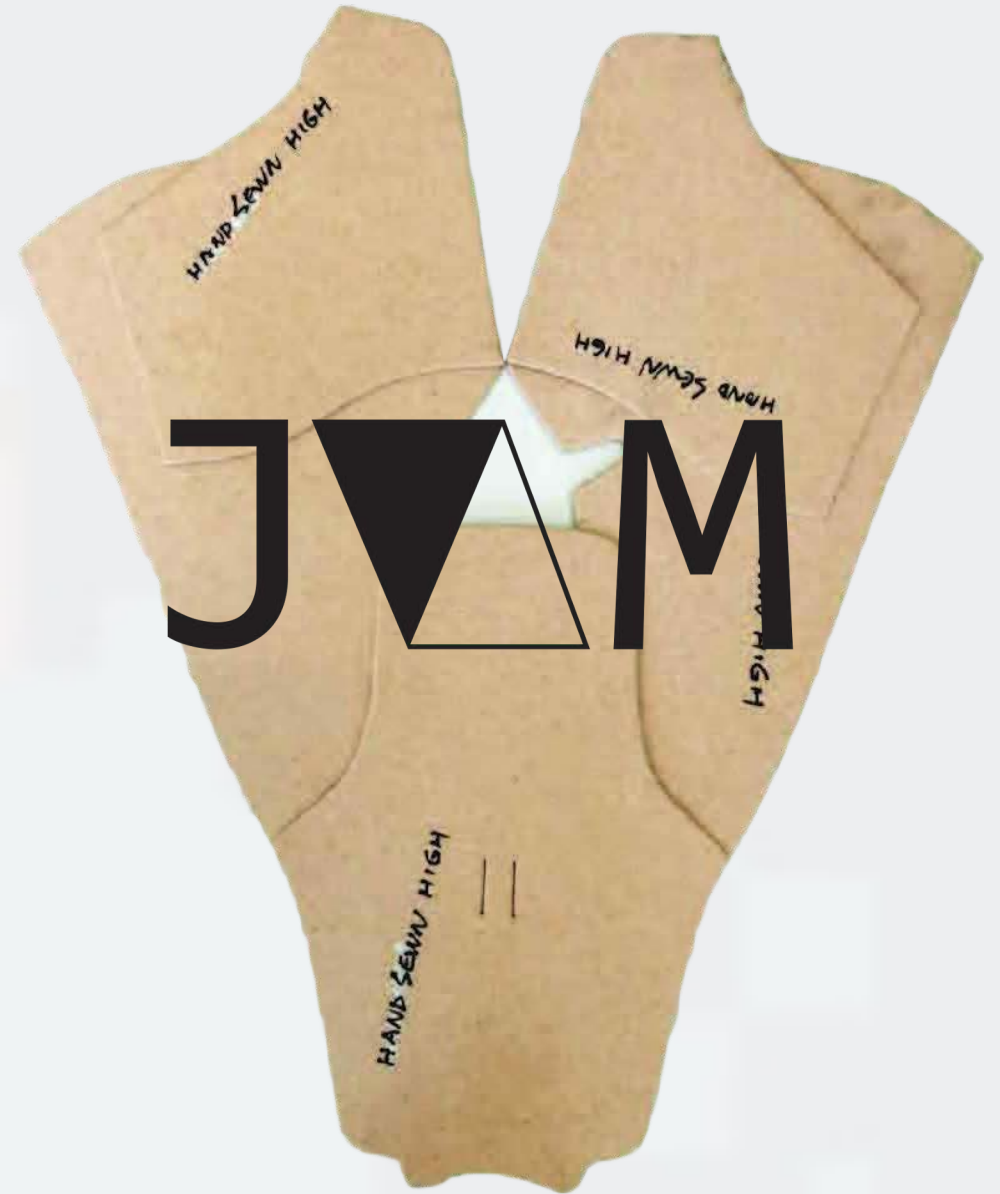

2025

JVAM presents SS25: a product dialogue of balanced contrasts. This vibrant collection remains rooted in the brand's core principles of flexibility, functionality, comfort and modernity.

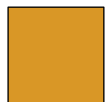

Showcasing our signature elements - folded edges, minimal fastenings and a play on proportions - this collection also introduces innovative techniques by using leather in ways traditionally reserved for textiles. This experimentation can be seen in our intricate basketweave sandals and twisted leather slingback and kitten heel styles.

The SS25 collection embodies the JVAM philosophy of infusing modern design principles into the artistry of shoemaking by replacing traditional stiffening construction techniques with folded and twisted sheep leather. This approach enhances comfort and wearability while maintaining the artisan appeal that JVAM customers worldwide have come to expect.

Inspired by 1970's Spanish architecture, the colour palette offers rich saturation on our iconic sheep leathers, along with the introduction of a new luxury calf leather and velvet-like suede.
